Passionate and dedicated Frontend intern with a strong foundation in HTML, CSS, and JavaScript. Proven track record of creating responsive, user-friendly interfaces. Eager to leverage skills and learning abilities to contribute effectively in a dynamic team environment and further develop expertise.

EDUCATION

Ontario College Advanced Diploma of Computer Programming and Analysis

Jan 2024 - May 2025

Durham College

PROJECTS

Bank Management (<https://github.com/thwhxx/BankManagement>)

This solution is part of the Bank Management project, a .NET application designed to manage banking transactions and accounts. It includes features such as account balance checks, deposits, withdrawals, and transfers.

Record Searching, Displaying File Upload and Password Update (<https://github.com/thwhxx/INFT2100-Lab-3-Record-Se...>)

This lab focuses on enhancing your web application with the following features: record searching and displaying, file upload functionality, and password updates. You will integrate these features into your existing web application.

JS Connect (<https://github.com/thwhxx/INFT2202-ICE3>)

JSConnect is a dynamic web application developed using JavaScript, designed to facilitate seamless contact management, user login, and registration functionalities. With JSConnect, users can effortlessly manage their contacts, securely log in to their accounts, and register for new accounts with ease. Leveraging JavaScript's versatility, this project offers a user-friendly interface and robust backend functionality, ensuring a smooth and efficient user experience.

SKILLS

Frontend Development: Proficient in HTML, CSS, and JavaScript, with a focus on creating responsive and user-friendly interfaces.

Backend Development: Familiar with Java, Python, and C# for backend development and general programming.

Database Management: Experience in PostgreSQL and MySQL, ensuring efficient data handling and storage.

Cloud Computing: Knowledgeable in AWS, adept at deploying and managing applications in cloud environments.

Frameworks: Familiarity with Angular and Node.js for dynamic web development.

Learning Abilities: Strong commitment to continuous learning, demonstrated through rapid acquisition of new skills and technologies.

Problem-solving: Proven ability to analyze complex problems and develop effective solutions.

Communication: Clear and effective communication skills, adept at conveying technical concepts to both technical and non-technical audiences.
